EXPERIENCE

Web Designer and Administrator

Trombetta Designs, Fall 2005 – Spring 2011

- Created designs and sketches from scratch, inspired by the client's artwork
- Implemented a minimalist design to let the client's work stand out
- Incorporated the artist's overall-vision with solid design principles to create a cohesive whole
- Built custom image galleries using CSS, JQuery and Javascript to fit with the current look and feel

Front-End Developer and Graphic Design Contractor

N2Code, Summer 2010 – Fall 2010

- Created a color palette based on the client's key words of "fresh" and "energy"
- Designed various mock-ups and wireframes for the client to comment on a choose from
- Developed a working front-end for both employees and administrators based on the client design selection using ASP.NET, Javascript and CSS.

Junior Web Developer

I-Centrix, Fall 2008 – Fall 2009

- Maintained and assisted in extending various in-house intranet applications
- Assisted in the revamping of existing client-facing web applications
- Created and updated look and feel through the use of CSS
- Implemented dynamic interfaces through the use of CFML, Javascript, Python, and PL/SQL
